187 responses

20. The overall quality of teaching- learning process in your institute is very good.

187 responses

21. Give three observations / suggestions to improve the overall teaching – learning experience in your institution.

Good for education.

Good

1 overall teaching experience was good.

Teach students how to study
Not only for academics but also for the career opportunities

Well its overall good

It's good

Doesn't matter

Everything is okk

All teachers are very honest, polite and helpful.

All are Good

I think rather than LCD projector teachers should covered it on blackboards.We don't understand the concept as GOOD as blackboards in LCD Projectors.So,Blackboard teaching is the best of any kind...and teachers giving up their 100% on teaching and other curriculums

Overall teaching is good

Everything is going well. I wish the best to the institution.

Good

Good

All things are good about Nbn and staff

Instead of giving assignments to write, please give students mini projects to work on. It will be beneficial. Almost 99%. Students copy assignments whereas incase of mini projects 50%+ student do their own. And also mini project means practical wise. Not just writing report and making PPT.

- * Kindly give more project and real time problem to solve
- * Improving Learning Outcome Updating Teaching Methods.

Overall it's great platform to student learning to new things

1. Teachers encourage the students to take part in extra curricular activities.

It was great.

Overall i had a great experience with the college

Faculties are very cooperative ,they are perfect. Institute can assist students to get a intership and discuss about further opportunities after BE like doing a job or going for PG.

Giving more examples of real life applications would help understand concepts easily and quickly.

1. Make attendance compulsory.
2. Teaching should be profession oriented.
3. Teachers should take tests time to time.

1.We Could Actual Skill Based Teaching
Where We Focus On Students Embodying Professional Skills Rather Than Theory.

2. Workshops Rather Than Classrooms
Instead Of Classrooms We Could Conduct Lecture In A Subject Related Equipment Room.

3. Assigning More Projects To Students
This Inturn Will Bring Students Together To Create Ideas And Strengthen A Particular Study Community, Rather Than Just Students From Different Upbringing And Level Of Understanding.

Overall great experience and forever grateful to have a such a excellent college

Need to continuous visits in various industries

Good

Real life application and brainstorming on real life problem and viable solution

Good

Revision,Use local language for teaching,

All good

Everything is excellent

Co-operate with students for the external internship

Everything is good

Good experience

All the staff is supporting
Exam centric approach to teaching can be reduced, Application based learning can help
Since college start after syllabus end so no words for this but quite good experience while online classes
All is best
Good
It was overwhelming experience for me.
Doing good
No need to improve
Provide notes Guide about examination
Filed Visits can improve general understanding of industrial applications
Learning Experience is Excellent
They should use more examples
Give more practical knowledge
Great teaching no suggestions
Good
Good teaching knowledge staff
No suggestions all good
Our college was online, don't get a chance to attend offline college for long time
A complete overhaul of teaching methodology Working and up to date machinaries Teach to inspire, not to earn (and for management, pay teachers well and on time so that they can teach to inspire)
Teaching was good
