PRINCIPAL / DIRECTOR

Train The Trainers

The institute organizes Train the Trainer(TTT) programs by the senior faculty to the newly joined faculty to transfer the knowledge on the methodology of teaching different courses under the welfare schemes. It is used as a methodology to identify the areas of improvisation in course conduction and resource sharing. It helps in the enhancement of the professional growth of teaching staff.

TTT program is conducted for a group of faculty teaching the same subject in the form of sharing subject teaching techniques, notes, etc. This program also helps both the teachers teaching the subject for the first time and also the experienced teachers. It is observed that the TTT program is helping newly inducted faculty to effectively transact the curriculum as well as improving teaching practices at the undergraduate level.

The institute also has innovative programs like Student Training Program, skill development programs, lectures on ethics and universal human values, and Technical Training and Value Added Programs to imbibe and cultivate human values and skills.

Steps of TTT:

1. Scheduling the guidelines for Orientation Program and Institute for TTT conduction
2. Identifying the subject experts
3. Verification of syllabus points covered by experts during the Orientation program. Delivery of lecture by an expert must include:
 - Course file preparation
 - Model course file
 - PPT with unit-wise question bank
 - Depth of teaching
 - Mathematical problem solving
 - Practical's and Orals
 - Online/Insem/Test University examination preparation
