Dear Shubhangi Madam,

I have shared google drive access with you which contains notes for almost first 50 sessions. As the data is very large it is need to share by google drive. You can download and share the data amongst the participants. It is also better if you share the mail ID's of the participants I can share the drive access to them.

About the attendance of participants we have no sufficient data to provide you complete attendance of all participants to the sessions conducted till. During offline sessions one coordinators from your team was circulating the attendance page at the start of the session. The copies of these attendance are not available with us. Also during online sessions we were not admins so could not download the attendance of participants.
