### Management of the various types of Degradable and Non-Degradable Waste

The waste generated in the campus include liquid waste and solid waste- both of degradable and non-degradable nature. Solid waste includes both degradable and non-degradable components. The non-degradable solid waste generated in the campus include, paper, plastics, metal cans etc. Whereas, degradable waste includes food waste, vegetable peels, leaves etc.

- Students and faculty members are requested for optimum use of plastic items in the college
- Initiatives to promote reusable items such as steel glasses and plates
- Various Students forum manage Glass, paper and metal waste
- Waste are collected in separate bins
- Laboratory waste is disposed in pit, specially earmarked for the purpose.
- Effluents from various sanitary blocks as well as water used for washing and cleaning of utensils are connected to municipal Sewage line.
- RO kit is installed on every floor for drinking water.
- e-waste is discarded after the end of its useful life.
