Ph.D. (Aarhus University, Denmark)
PRINCIPAL / DIRECTOR

6.2.1 The functioning of the Institutional Bodies is effective & efficient as visible from policies, administrative set ups, appointment & service rules, procedures, deployment of Institutional Strategic/ perspective/ development plan etc.

Students: -

In order to improve experiential learning through projects, entrepreneurship, seminars, conferences, and workshops through collaboration, students are involved with industry and academics.

Faculty:-

Academic staff members are incentivized to obtain financed projects and facilities. It is also recommended for further faculties to update their qualifications through higher education admission or completion. To improve research-based teaching and learning, senior faculty members with Ph.D.s are being sought out on a daily basis through individual connections. The institute has a policy that pays faculty members Rs. 5,000 every paper to publish their work in scopus or web of science publications. The head of the department in discussion encourages faculty members to participate in industrial training each semester during their vacations in order to improve their skill set.

Industry-Institute Interaction :-

A well-organized platform that makes the Entrepreneurship Development & Innovation Cell accessible in order to enhance and expand the Industry-Institute collaboration. It is recommended that students conduct two internships in their field of interest in order to improve their employability. Additionally, the platform's industry partnerships support the development of a start-up ecosystem for worthy students through project-based learning.

Resource mobilization through innovation, IPR, research and consultancy

The Entrepreneurship Development Cell is hosting a number of programs on entrepreneurship, intellectual property rights, and research methodology. It is also recommended that professors submit one proposal to both government and non-government organizations each semester. Additionally, yearly industry visits are scheduled for each class in accordance with program requirements.

NEP-2020:-

Students and staff are informed about new value-added, need- and skill-based certification courses in accordance with NEP-2020 regulations through participation.

Research:-

It is urged to improve the quality of publications in reputable journals. It is decided to publish one additional article per faculty in Web of Science for MBA and in Scopus for Engineering & Technology. Faculty are then encouraged to publish books and chapters.

Alumni Engagement:-

Through Alumni Connect, alumni are invited to serve as mentors and advisors for project-based learning, workshops, seminars, and other events.

Infrastructure Development:-

For better connectivity and coverage, upgraded computing facilities with Internet access (both wired and wireless) are extended on each floor.
